Greetings from
General Conference Chairs

2009 IEEE International Conference
on Intelligent Computing and
Intelligent Systems (ICIS 2009)
November 20-22, 2009
Shanghai, China

http://www.icis09.cn/
Welcome

Welcome to 2009 IEEE International Conference on Intelligent Computing and Intelligent Systems (ICIS09)

Welcome to Shanghai, China!
Welcome

We hope that you will enjoy the ICIS 2009 technical program and the irresistible attraction offered by the amazing city of Shanghai.
ICIS 2009
Organizer and Sponsors

Organizers:
• Shanghai Jiaotong University
• Xiamen University

Sponsor:
• IEEE Beijing Section

Co-sponsors:
• IEEE Shanghai Section, China
• City University of Hong Kong
• Iwate Prefecture University
ICIS 2009 Committees

General Conference Co-Chairs:
- Changle Zhou, Xiamen University, China
- Xiaotie Deng, City University of Hong Kong, China
- Kenzoh Itoh, Iwate Prefectural University, Japan

Technical Program Committee Chairs:
- Shaozi Li, Xiamen University, China
- Yinglin Wang, Shanghai Jiaotong University, China
- Ying Dai, Iwate Prefectural University, Japan
- Weixing Zhu, Jiangsu University, China
- Hongtao Lu, Shanghai Jiaotong University, China
- Demin Li, Donghua University, China
ICIS 2009 Committees

Publication Chair:
- Mengqi Zhou, IEEE Beijing Section, China

Organization Chair:
- Jianxun Li, Shanghai Jiaotong University, China

Local Arrangement Chair:
- Xinbing Wang, Shanghai Jiaotong University, China

Publicity Chair:
- Dacheng Tao, Nanyang Technological University, Singapore

Finance Chair:
- Mei Zhang, Shanghai Jiaotong University
ICIS 2009 Technical Program Committee Members

Weiming Shen, National Research Council, Canada; Xuetao Li, University of London, U.K; Milton-Redhill University of Greenwich, U.K; Jing Tao Yan, University of Regina, Canada; Henryk Rybinski, Warsaw University of Technology, Poland; Rui Camacho, University of Porto, Portugal; Jing Jiang, Singapore Management University, Singapore; Yunhong Wang, Beihang University (BUAA), China; Michael Sheng, University of Adelaide, Australia; Jiashun Wang, Monmouth University, USA; Jiang Li, University of Adelaide, Australia; Jun Dong, East China Normal University, China; Zheyin Zhang, University of Tampere, Finland; Demin Li, Donghua University, China; Jianxin Liu, Hunan University of Science and Technology, China; Yuding Wang, North China University of Technology, China; Enrico Corchado, University of Bologna, Spain; Aurora Vizcaíno, University of Castilla, Spain; Yun Ling, Zhejiang Gongshang University, China; Wencai Du, Harbin Institute of Technology, China; Le Sun, Chinese Academy of Sciences, China; Yaoru Sun, Tongji University, China; Basabi Chakraborty, Iwate Prefectural University, Japan; Jun Hikara, Iwate Prefectural University, Japan; Zhou Su, Waseda University, Japan; Yue Wang, Institute for Infocomm Research, Singapore; Hongtao Xiong, Shanghai Jiaotong University, China; Meixia Tao, Shanghai Jiaotong University, China; Kai Qin, University of Waterloo, Canada; Tianrui Li, South West Jiaotong University, China; Jianwen Ma, Hunan University of Science and Technology, China; Costas Chalkiadakis, Iwate Prefectural University, Japan; Jian Wang, CIMS Research Center, Tsinghua University, China; Changjing Lu, Samning University, China; Yun Cheng, Hunan Institute of Humanities, Science and Technology, China; Yunlei Lei, Xi’an Jiaotong University, China; Yidong Chen, Xiamen University, China; Gaoping Wang, Henan University of Technology, China; Richang Hong, National University of Singapore, Singapore; Keiji Huang, Chinese Academy of Sciences, China; Ying Zhou, Sydney University, Australia Jiale Shen, Singapore Management University, Singapore; Yun Fu, IBM Technologies, USA; Jinlai Tang, National University of Singapore, Singapore; Bai Xiao, Beihang University, China; Jing Li, University of Sheffield, U.K; Ling Shao, Philips Research Laboratories, Netherlands; Yanwei Pang, Tianjin University, China; Xiaochun Cheng, Middlesex University, U.K; Yuan Yuan, Aston University, U.K; Huyu Zhou, Brunel University, U.K; Xinmin Sha, University of Tokyo, Japan; Qinxing Xu, University of Uster, Switzerland; Zhixin Chen, Beijing University of Civil Engineering and Architecture, China; David Rezende, Iwate Prefectural University, Japan; Masakatsu Kihara, Iwate Prefectural University, Japan; Koji Mabuchi, Iwate Prefectural University, Japan; Chongwu Zhang, Tsinghua University, China; Shengli Liu, Shanghai Jiao Tong University, China; Hongtai Wang, Suzhou University, China; Mindi, Nanfang Hong Kong University, China; Jiayue He, Southeast University, China; Haojie Li, National University of Singapore, Singapore; Xinmin Hu, Central South University, China; Qingsheng Ren, Shanghai Jiao Tong University, China; Guangtuo Xue, Shanghai Jiao Tong University, China; Chullang Weng, Shanghai Jiao Tong University, China; Fang Li, Shanghai Jiao Tong University, China; Lisheng Hu, Shanghai Jiao Tong University, China; Shaoyuan Li, Shanghai Jiao Tong University, China; Jinhua Wang, Shanghai Jiao Tong University, China; Weiqin Tong, Shanghai Jiao Tong University, China; Dawu Gu, Shanghai Jiao Tong University, China; Yuan Lei, Shanghai Jiao Tong University, China; Yonglei, Sichuan University, China; Guo Zheng Li, Tongji University, China; Youdong Ding, Shanghai University, China; Shitong Wang, Jiangnan University, China; Baoyun Wang, Nanjing University of Posts and Telecommunications, China; Yun Li, Nanjing University of Posts and Telecommunications, China; Linsheng Wang, Shanghai Jiao Tong University, China; Kewei Dai, Fudan University, China; Chongwen Wang, Nanjing University of Information Science and Technology, China; Mingjun Cai, China Agricultural University, China; Yangqiu Chen, Fudan University, China; Yue Lu, East China Normal University, China; Ju Liu, Shanghai Jiaotong University, China; Bo Zhou, Qualcomm Inc., USA; Changjie Zhou, Xiamen University, China; Chengdong Wu, Northeastern University, China; Chenzhao Cai, Nanjing University of Science & Technology, China; Congguang Wang, NEC Lab, USA; Die Hu, Fudan University, China; Feng Qin, East China University of Science and Technology, China; Fengjun Zhang, Institute of Software Chinese Academy of Sciences, China; Guoping Wang, Peking University, China; Guoshan Zhang, Tianjin University, China; Hancheng Lu, University of Science and Technology, China; Hiroshi Harada, National Institute of Information & Communication Technology (NICT), Japan; Hongwei Mo, Harbin Engineering University, China; Jing Jiang, Singapore Management University, Singapore; Jun Lu, Michigan State University, USA; Kaifeng Zhang, Southeastern University, China; Lijun Zhang, Harbin Engineering University, China; Limin Tao, Tsinghua University, China; Longbing Cao, University of Technology Sydney, Australia; Mikael Gidlund, ABB Corporate Research, Sweden; Min Yao, Zhejiang University, China; Qiangru Zhao, University of Aizu, Japan; Shuang Cong, University of Science and Technology of China, China; Tao Jiang, Huazhong University of Science and Technology, China; Tao Zhang, Tsinghua University, China; Tingkai Wang, London Metropolitan University, UK, Wan Choi, KAIST, Korea; Wei Wei, NEC Laboratories America, USA; Xiaojian Ban, University of Science and Technology Beijing, China; Xiaolin Zhou, Fudan University, China; Xiaoying Gao, Shanghai Jiaotong University, China; Xiaoyuan Liu, Yanshan University, China; Xingsheng Gu, East China University of Science and Technology, China; Yeqin He, Shenzhen University, China; Yi Xu, Shanghai Jiaotong University, China; Yong Tan, Peking University, China; Yisong Chen, Peking University, China; Yongshen Ding, Donghua University, China; Yuan Wang, University of North Carolina at Charlotte, USA; Yuanchun Shi, Tsinghua University, China; Zhuhua Xiong, Tsinghua University, China; Zhu Han, University of Houston, USA; Jin Zhao, Huazhong University of Science & Technology (HUST), China; Jiaocheng Tan, University of Portsmouth, UK; Dong Yang, Shanghai Jiaotong University, China; Yuzhen Wang, Shandong University, China; Bin He, Tongji University, China
Acknowledgments

• Many thanks to the ICIS 2009 Program and Organizing Committees their hard work and dedication

• Special thanks to:
  - Prof. Yinglin Wang, Shanghai Jiaotong University, for handling over 1,900 paper submissions
  - Prof. Shaozi Li, Xiamen University, for excellent editorial of the conference proceedings
ICIS 2009

• The goal of the conference is to gather researchers from various areas and disciplines to present results and participate in discussions under the common theme of intelligent systems and computing.

• These interactions will facilitate a better understanding of the diversity as well as of their similarities of various approaches to solve scientific and engineering problems.

• They will also open avenues for applying approaches that have proved successful in one area to solving problems in different areas and new applications.
ICIS 2009 Records

Accepted papers will be included in:
• IEEE Xplore
• Engineering Information (Ei) Compendex, Elsevier
• Index to Scientific and Technical Proceedings (ISTP), Thomson Scientific
Shanghai is located at the mouth of the Yangtze River, the longest river in China, on the west bank of the East China Sea and in the middle of China’s coastline. Through its coastal position Shanghai acts as a link between China’s inland regions and the outside world, and it is comfortable with both eastern and western cultures.

With a history of more than 700 years, Shanghai was once the financial center of the Far East. Since the reforms that began in the 1990’s great changes have taken place in the city. The municipal government is working towards building Shanghai into a modern metropolis and a global economic, financial, trading and shipping center by 2020.
Today, with a land area covering 6,340 square kilometers and a population of 16 million people, Shanghai has become the largest economic center in China and an important port city. It has maintained a GDP growth rate of over 10 percent in the last 11 years. More than 100 foreign countries and regions have investments in some 30,000 local projects, taking advantage of the 74 deep-water berths and 20 international container piers at the Shanghai Port. The Yangshan International Deep Water Port that is currently under construction is expected to give a modern twist to the port city. Hongqiao and Pudong International airports link Shanghai with 141 cities in 29 foreign countries and regions everyday.
The fluent communications systems and exchanges between people, commodities, capital, technology and information has made Shanghai a vibrant city.

Shanghai is also a prominent historical city in China with a rich cultural heritage. The vintage western style buildings on the Bund and the modern Lujiazui Financial Center in Pudong face each other across the Huangpu River. On the other hand, Yuyuan Garden and Longhua Temple display graceful ancient Chinese architecture.

In the last few years, various fashion shows, art and cultural festivals have attracted many foreign tourists. The 2010 Shanghai World Expo alone is expected to entertain some 75 million foreign visitors. The shopping malls on Nanjing road, Huaihai Road and in the Xujiahui Business Center showcase the most stylish and chic products in the world, and are filled with people everyday.

The people of Shanghai are diligent, intelligent and passionate. We welcome your visits and investments here, to get a better knowledge of today, yesterday and tomorrow's Shanghai.
From the ICIS 2009 Chairs

• We wish you successful deliberations, stimulating discussions, new friendships, and all enjoyment that Shanghai can offer

• General Conference Chairs:
  - Ljiljana Trajkovic, Simon Fraser University, Canada
  - Mengqi Zhou, IEEE Beijing Section, China
  - Junfa Mao, IEEE Shanghai Section, China
  - Wen Chen, Shanghai Jiaotong University, China
